

# Occupational Health and Safety Policy

At Securex we place great value on the health, safety and well-being of our employees, customers and the local communities we work with. This is reflected in our Company's firm commitment to responsible practices that minimize any adverse health, safety and environmental impacts arising from our activities, products or services. At Securex we aim to ensure that our overall operations are free of any serious safety and health incidents. We are committed to the continual improvement of the integrated management system and its performance. Securex Management ensures that:

1. The documented Occupational health and safety policy is implemented, maintained and is made available to interested parties.
2. All applicable legal requirements and other obligations relating to health, safety and environment hazards are fully complied with at all times.
3. Sufficient resources, expert advice, competent employees, instructions, information and training are made available to ensure all health and safety objectives are met and reviewed as and when required.
4. Managers at all levels ensure that all reasonable measures are taken to prevent personal injury, ill health or damage to the environment during all processes of design, construction, production, transportation, operation, maintenance, decommissioning and disposal of products, services and equipment.
5. The OH&S policy is communicated to all employees and persons working under the control of Securex to ensure they act responsibly in order to prevent injury to themselves, to others, or to the environment and damage to property.
6. Periodic risk assessments are carried out of all project activities and control measures are put in place to deal with identified hazards.
7. The safety and health plans and procedures, the OH&S Policy, are closely monitored to ensure they remain relevant and are revised to ensure their ongoing effectiveness.
